

### 1. Institution

PeB – vocational perspective, Hildesheim / Germany  
 Adaptor, Mikkeli / Finland  
 PENTOS, Sassari / Italy

### 2. Name and duration of the sub-project

FIND IT  
 01.07.05 – 31.10.07

### 3. General information

The transnational partnership “FIND IT” wants to make use of European added value through intense cooperation of the EQUAL Development Partnerships (DPs) “Adaptor” in Mikkeli, Finland, “PENTOS” in Sassari, Italy and “PeB – vocational perspective” in Hildesheim, Germany. The common objective of the DPs is to prevent social exclusion of young people and to enforce their integration in educational systems and to the labour market. The steering of the transnational cooperation is carried out by the “Management Group” that consist of members of the three DP-co-ordinations.

### 3. Objectives

- to clarify each DP’s local concepts and the influence of the different national frameworks
- to exchange and analyse information, experiences, methods and strategies at European level for enhanced possibilities of quality improvement for each DP
- joint development of methods adjusted to the needs of the target groups
- to refine counselling and coaching concepts through access to a wider range of experiences
- to create common conclusions and overall recommendations on key topics
- to identify policy instruments that improve the integration of disadvantaged groups into vocational training and are transferable as best practice to other systems

### 5. Project description / activities

- Workshop-meetings: give the three transnational working groups “methods”, “enterprises” and “coaching/counselling” the possibility to meet in twice per year to work on their agenda.
- Staff-exchanges: ensure an intense cooperation on all levels.
- Conferences: serve as platform to present results, to work on the contents of further cooperation and to exchange information on key issues by bringing politicians, experts and practitioners to participate and introduce subjects for discussions.
- Guide book: gives an insight into the results, practices and experiences of FIND IT. It is to be a handbook to spread good practices, conclusions and recommendations on key issues.
- Evaluation: monitors different aspects of the co-operation quality of FIND IT through continuous process-, context- and objective oriented evaluation.
